## CURRENCY MINT ERROR

The above \$1.00 Silver Certificate photos show an error in having an excess corner end. A minor, but interesting variety, this came about during the trimming process. A number of other varieties similar to this are, crease folds and extended corners. If there is a crease or fold in the sheet or bill, which is passed unnoticed through the press, the result will show by pulling out the ends like an accordion, a white blank space margin from  $\frac{1}{4}$ " or more will show. Note the sequence numbers. Evidently these two bills are from different sheets.

Watch our future issues, they will contain more illustrations and articles on currency.

## CANADIAN QUARTERS

By Starr Gilmore

According to the logic of the decimal system, a 20 cent piece is in order and the Province of Canada had 750,000 of such coins minted in 1858. But Canada soon decided that such a coin was not practical and it had only a single year of issue. We had no such piece in the year given and Canada was somewhat influenced by our example.

We waited until 1875 before trying the same thing and it was speedily discovered that they were highly unpopular and impractical since they were naturally confused with the 25 cent pieces. Further, there never was any good reason for putting them out.

On the other hand, Newfoundland was fairly well satisfied with such coins for she began to use them in 1865 and did not abandon them until 1912. So she followed neither the example of Canada or the United States.

With 1870, Canada began her 25 cent series which has continued until the present time. A good number of the quarters were struck by the Heaton Mint, the last of them in 1902. In practically all instances, years which saw coins struck in Birmingham saw none struck by the Royal Mint.

In 1920 the millesimal fineness of Canadian coinage was changed from the 925 standard of England to 800 and other changes in her coins effected at about the same time; for example, the change in the size of the cent. The statement which covers this situation occurs in the 1937 Mint Report. In fineness generally, the quarters rank third of the four silver denominations and have never led the list.

As far as the designs of the quarters is concerned, all that has been previously stated about the dimes and halves applies equally to these coins. The familiar maple wreath design began therefore with 1870 and continued until 1936.

Most of the maple wreath quarter issues are fairly small and the smallest is the one of 1889, only 66,340 being minted in that year. The most expensive is the "H" of 1875 which begins at \$45 and ends at \$400. Although 1,000,000 were minted, the vast majority have gone by the way and are not to be had. The best known variant of the series is the well known 1936 "Dot" and it is possible to possess this piece at something like a reasonable price since it begins at \$3.50 and reaches \$75.

It is perfectly within the realm of possibility to have a complete set of the quarters, but if wanted in fine or uncirculated they are certain to be expensive. A collector can put together a beautiful type set for only a moderate sum.

Caribou quarters began with 1937 and the reverse of this coin was executed by Emanuel Hahn. His signature appears as a very small "H" at the bottom of the piece on the left hand side. The obverse side is the work of Henry Paget.

An excellent choice was made in the new design because the caribou is typical of the bleak and barren lands of upper Canada. Although there is actually some difference, the caribou is so closely related to the reindeer as to make the difference almost purely a technical one. And as might be supposed, the term is Algonquin in origin.

Canadian Government officials are greatly concerned over the future of the caribou and there is grave danger that it will become an extinct species. The total number of caribous has been reduced to about 200,000 and one fatal year, 1958, saw the loss of three-quarters of the calves, a loss occasioned by untimely June blizzards. And if the caribou does perish, then also will perish about 19,000 Indians and Eskimaux who absolutely depend upon the animal for a living. And whereas we did manage to save the buffalo whose likeness is on some of our nickels, Canada will be in the melancholy situation of having an animal symbol on her coins which no longer exists. It is to be hoped that such a thing will not happen, but the future is not very promising.

Trouble was experienced with the obverse of the coin in 1953 because the effigy of Queen Elizabeth was slightly higher in relief than was the one of her father, King George VI. After difficulty of no inconsiderable sort, the desired change was effected, but not before a number of "No Strap" quarters were put out, some of them proof-like. In fact, entire proof-like sets show the variation although they are not numerous. And also, the first quarters of the 1953 issue are wire edge.

Dies for the quarter of the year given were increased in diameter from 912 to 923 to allow for the new flat edge and the diameter of the finished coin went from 930 to 940. Greater die life has resulted from the use of the flat edge variety and all silver coins from this time on are of this type.

A further point to be noted is the fact that the quarters with the wire edge have a large date; those with the flat edge, a smaller one. It is impossible to give any figures as to difference in number of the two varieties.

Although the 1948 quarter has the small mintage figure of 2,564,424 it is fairly easy to find in circulation and I have myself found three of them and very recently noted a fourth. One reason for this situation lies partly in the fact that a great many people pay very little attention to coins of this denomination. The 1948 quarters begin at 75 cents and end at \$4 in brilliant uncirculated. In proof-like condition, they would be worth twice as much again, but of course nobody sells them of this sort except as a proof-like set.

Master dies for the caribou quarter were made in the Paris Mint and the same agency also made the dies for the dime and the cent. The Royal Mint executed the dies for the dollar and the 50 cent piece.

Entered as second class matter October 13, 1956 at the post office of Newark, New Jersey under the act of March 3, 1879.

**FROM YOUR EDITOR'S DESK**  
**Note: New location and address**

The month of September was a hectic period, with the purchasing of new property, buying new office equipment and moving to the new location plus having a new printing house get together our last issue and attend the conventions we were swamped. With our able help we managed to get through the mess. We have made a number of errors in the last issue but this is expected, my apologies to all concerned. We are now settled at the new location. All advertisements, business and correspondence should be sent to **COIN NEWS MAGAZINE, 231 North 18th Street, East Orange, N. J.** We are happy to add to our staff Mr. Nick Salimbene, who will among other duties of our Coin News, manage a small coin department. One and all are welcomed to visit our new publication office and coin department which measures five large rooms. Visit us, we'll be happy to meet you in person. We are located between Springdale Avenue and 4th Avenue, next to the Triumph Bank, Fidelity Trust Bank and Ampere Theater in East Orange.

With our added help we hope to better serve you. Our future issues will contain articles and illustrations of all series of Currency and Coins plus other added features.

One of our readers from Montclair promptly visited us at the Newark Convention and said, "Is this what you're looking for?" and plumped a Fine 1893 Round Top Canadian 10c and an 1893 Unc. Flat Top on our table in reference to our September issue notice. We will have these photographed and gather together all available information for an interesting article on this rare piece for our next issue.

Our new format and name was received by many with highly complimentary remarks via mail and in person. We are pleased by this and thank one and all.

**CONVENTION DAY**  
**By Nick Salimbene**

After freezing and at the same time sweating from one hour's work of loading up the station wagon with coins and copies of the Coin News, your editor and I were off at seven-thirty in the morning of this clear, brisk day. We arrived at our destination at eight sharp, and much to our surprise, we were greeted by about 15 other bourse dealers who were already in the process of setting up their tables. As we went through the door, I quipped to Frank, "How early, is early?" After a good hot cup of coffee, your editor left for his table and I to fulfill my part as Chairman of the registration committee.

The occasion was the 2nd annual coin convention of the Newark Coin Club which was held at the Newark YW-YMCA at 600 Broad St., in Newark, N. J. This building is one of the most modern of its kind in the country, and its air conditioning came in mighty handy during the peak of the convention.

There were over two thousand people who attended, representing Numismatics from all parts of the Eastern States. The registration table reported one hundred and seventy registering. Highlight of the convention was the active bourse with 38 named dealers participating . . . buying, selling and trading were at a high. The convention was further highlighted by the personal appearance of Mr. Robert Friedberg, author of "Paper Money of the United States." The Convention Committee can be congratulated on doing a very fine job to insure the success of the convention . . . which indeed it was. Best sales noted were: rolls, gold, currency and 1955 double die shifts which brought \$55. in XF.

Going some 10 hours without food we ended at ten o'clock. Frank and I took our wives along with another couple to enjoy a "Sizzling" steak. This was all that was needed to end a perfect day . . . but . . . alas . . . my day came to ruin. I got stuck with the check!

**7th MANA CONVENTION**  
**October 23-25, 1959**

The Claridge Hotel in Atlantic City, N. J. Should bring a large gathering of coin-currency collectors. Reports received showed bourse tables were sold out two months ago, some 48 tables and waiting list of some 15. This event is expected to be best yet for MANA. We hope to spend the day there, even though we don't have a table. There are many interesting sites to visit in the off hours. Atlantic City is noted for its Miss America Contest and seashore resort. Plan for an enjoyable day by attending this big event.

THE BANK OF TIME

If you had a bank that credited your account each morning with \$86,400.00, that carried over no balance from day to day and allowed you to keep no cash in your account and every evening cancelled whatever part of the amount you failed to use during the day, what would you do? Draw out every cent, of course! Well, you have such a bank, and its name is "Time." Every morning it credits you with 86,400 seconds. Every night it rules off, as lost, whatever of this you have failed to invest to good purpose. It carries over no balances. It allows no overdrafts. If you fail to use the day's deposits the loss is yours. There is no going back. There is no drawing against the "tomorrow." You must live in the present—on today's deposits. Invest it so as to get from it the utmost in health, happiness and success.

MORE ABOUT BRONZE CENTS

By Elmer R. Kirk

Felicitations to the COIN NEWS for their help in promoting added interest in Mint Error coins. Also congratulations to Starr Gilmore on his recent article, Bronze 1943 cents.

Brass planchet cents, sometimes called bronze, fall easily into the category of "Wrong" planchets as outlined by our National Collectors of Mint Errors club. They are struck on wrong metal planchets.

The years for "known" brass planchet Lincoln cents are 1917-P, 19-P, 20-P, 40-P, 41-P, 41-S and 44-P mints. The usual retail price of genuine brass planchet Lincoln cents is about \$35 each and up, according to grade and scarcity in the year minted.

The reason for this type of error coin is very simple. Our U. S. mints strike coins for other countries, especially South American. Many of these countries use brass planchets the size of our Lincoln cents—and you can take it from there. Wrong planchets get inadvertently mixed and out comes a Lincoln cent struck on a foreign brass planchet. It is as simple as that!

Most collectors keep a genuine "blank" brass planchet on hand for comparison when searching for Lincoln cents. However, if you have no blank around, the edge of the suspected coin can be filed or scraped. If the filed part shows a "pinkish" copper glow it is not authentic. If in doubt, have it appraised by an expert or analyzed by a commercial laboratory.

#### COMING SOON 1960 PROOF SETS

Am now taking orders for the 1960 proof sets. Expect delivery before February 1st, 1960. The price is \$2.75 per set. Send your check or money order now, and get fine GEM PROOF SETS. The early strike proof sets are always much nicer than the proof sets struck later in the year. All orders filled in strict sequence of receipt. Up to the present time there has been a very low mintage of the 1959 proof sets, and I predict even lower mintage of 1960 proof sets. The prices of the 1960 proof sets will advance in prices very fast. So, send your remittance and please limit your order to not more than 50 sets. Send 50¢ for shipping charges.

## NEWS! INFORMATION! BARGAINS!

"Just a word about your CANADIAN BULLETIN. Three years ago, after twenty years of collecting U. S., I decided to go Canadian. The problem was to get information. I must say, without a doubt that of all the papers, bulletins, magazines, etc. that I get each month, your little BULLETIN tops them all in worthwhile information and facts. I enjoy it very much."—R. M. P., Lakewood, Ohio.

"I think your BULLETIN is well worth twice the price, keep up the good work." R. L. E., Edmonton, Canada.

Above are just a few of the many comments received about the CANADIAN BULLETIN, which includes Canada's largest exclusive monthly listings of Canadian and Newfoundland coins for sale. Sample copy NOW FREE! Year's subscription ONLY \$1.00.

## IT PAYS TO ADVERTISE!

Doing business without advertising is like winking at a girl in the dark. Your ad in this magazine will be read by THOUSANDS of collectors.

## A beautiful thought . . . . .

If there were a mountain a thousand miles high, and every thousand years a bird flew over that mountain, it's wing tip just brushing the top, in the course of countless eons the mountain would be worn away . . . yet that is only one tenth of my love for you . . . . .

I will have a Bourse table at the Lebanon Valley Coin Club Convention being held at the Serbo-American Social Club, 120 E. Weidman St., Lebanon, Pa., Oct. 16th, to 18th, 1959. Also at Middle Atlantic Numismatic Assn. Coin Convention, at the Claridge Hotel Atlantic City, N. J. on Oct. 23rd to 25th. Plan to attend.

Bill Stigall

Box 173 GREENBRIER, TENN.

Hello everybody. I am back again. As most of my customers know I was in the hospital. I had to send all orders back. My partner is what you might call an apprentice in this business, that is why all orders were returned. He didn't want to make any errors.

As a favor to me and all other coin dealers or whoever you order from please put your correct return address on your letter.

Thank you,

## TWO CENT PIECE

Now the two cent piece in only fair condition has been the basis of many arguments. It definitely looks like a 3 over a 2, but there is no record that I know of, of such a coin. It is neither the 72 or 73, as far as it looks, and in the past few years hundreds of collectors have looked at this coin and could not tell what it was.

Sincerely yours,

Claude Steinau  
Louisville, Ky.

## GOLD

AT 55% DISCOUNT

(from the 1934 value) by using cheap  
1959 dollars (worth 45c).

MAKE TREMENDOUS PROFITS. A Gold  
price mark-up is inevitable and coming  
soon. Gold coin, selling at about 15%  
premium over gold content is a bargain  
—it costs only 1/2 as much in purchasing  
power as in 1934.

PROTECT YOURSELF. Gold is the safest  
inflation hedge. The U. S. Dollar is fiat  
money—irredeemable in gold. Historical-  
ly fiat money always becomes valueless.  
DEFEAT the political spenders by buying  
gold—it is political dynamite. Strike a  
blow for free enterprise and sound  
money.

LEARN ALL about it. Read *The Gold  
Report*, now in its Second Edition, a 40-  
page booklet on Why, Where, and How  
to buy gold bullion or coin—legally.

## JUST ONE MAN'S OPINION

The Carson City Dollars are the most underpriced series of all coins minted. All one has to do is check the number minted of each year and you will see that there will never be enough to supply our five (5) million or more (est.) collectors. Take the 1885 with only 228,000 minted. This would be one for about every twenty-one collectors. Second comes the 1881 with only 296,000 and so on.

I have a few sets of the 1880 through 1885 complete in Strictly Brilliant Uncirculated.

**For set of six (6) . . . . . \$27.95**

Below are my prices for single coins . . . all Brilliant Uncirculated.

1878 CC Proof Surf.	6.00	1882 CC	4.75	1885 CC	6.50
1880 CC	7.50	1883 CC	4.75	1890 CC	5.50
1881 CC	6.50	1884 CC	4.75	1891 CC	5.50

My second offering for this month is, in my opinion, a small set with a future. The War Time Silver Nickel consisting of 11 coins minted 1942 to 1945. (See Red Book.) This set in Brilliant Uncirculated is beautiful and also underpriced in this booming coin market.

**My price for the complete set is . . . . . \$9.95** Only until present stock is sold

The 1943-D is of course in this set and this is one that I compare in value to the 1942-D which is selling today for \$4.50 each.

## LETTERS

Dear Sirs:

I thought you might be interested in my recent find of a 1956-D penny with a double D. I am interested in knowing if any others have been found.

Paul Blahuta  
Kenosha, Wisc.

Mr. Spadone:

I have read your magazine for a good two years and I have never had reasons to write to you before. I read your columns about readers rare finds. About two months ago while sorting through some pennies I came across a 1956 Lincoln on a silver planchet and would appreciate if you or your readers could let me know anything about this coin as to how many are known or its value, if any.

Thank you for your time in reading this letter. Your magazine is the best I have read in quite a while.

Mr. Walter Klecka  
New Milford, N. J.

(Editor's note) Over 18 are known. Value \$40.00 to \$100.

The August meeting of the Staten Island Coin Club was held with great success. Philip Rosenbaum, president, suggested that Sept. be a New Membership Meeting. Each member was instructed to bring a future candidate. Many rare coins were put on display. A coin Auction was scheduled for the Sept. Meeting.

James McQuillan  
Corr. Secy.

Dear Mr. Spadone,

Your publication of "Coin News" magazine is, in my opinion, one of the finest, and I think you are rendering an excellent service to all collectors. I have no complaint about your magazine, but I do have a question or two with regard to advertisers that use your (and other) mediums to sell their coins.

On many occasions I have sent orders to those who advertise, including my check with my order, only to have the check returned, with the notation "Sold Out." Now I know that there are many reasons why this happens. Chiefly, however, I suspect that the market price has risen after the advertiser has placed his ad, and there being quite a time lapse, it is quite conceivable that there could be a rise in prices. Hence a "Sold Out" sign. This is all quite possible and it does happen, but I suspect that there are some who are not "sold out" and are reluctant to let the merchandise go at their original advertised price. In my opinion his is not an ethical practice, and I am sure you agree. I am not saying that this is always the case, but it has happened to me so many times that I am getting a little provoked about it, and perhaps a word (via your publication) regarding such practices would help.

I am sure that the bulk of the coin dealers are very honest and ethical in their business dealings. However, it takes only a few to spoil it.

L. W. R., Mass

**FALL COIN FESTIVAL**—More than 2000 coin collectors will swarm to Springfield, Illinois October 24th and 25th 1959, when the Central Illinois Numismatic Society holds its annual "Fall Coin Festival." The entire third floor of the K. of C. Building will provide separate spacious rooms for bourse, auction, display and lounges. The location is easy to find, being just four and one-half blocks south of the square on Sixth Street. Gold uncirculated coins, proofs, and rarities will comprise each evening's auction, and very enthusiastic bidding is promised. Most of the mid-west dealers will be on hand, and they will spark the brisk trading and bourse activity with choice and desirable material. The event will be highlighted with door prizes every hour, special awards, and orchids from Hawaii flown in especially for the ladies. Free admission, ample parking, elevator service, good food and drink, convenient rest rooms. General chairman: C. W. Loud, 1615 W. Governor, Springfield, Illinois.

## BENJAMIN FRANKLIN COIN CLUB

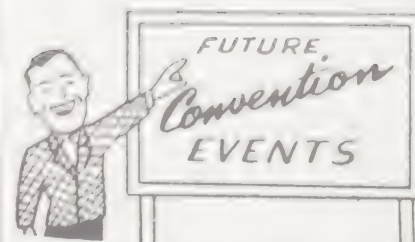

Program Chairman Leo Nacelli opened the meeting on August 5, 1959, for the organization of the Benjamin Franklin Coin Club. The meeting was held in the York Atlantic Investments Corporation's newly acquired building at 1609-15 E. Erie Avenue.

Mr. Nacelli explained that the club will occupy a large room in the building for use by the members. The club room will be open for use six (6) days a week from morning to evening. There will be tables, illuminated magnifiers, coin counting and wrapping machines, and library available. Also available to members are safe deposit boxes in the large walk in vault.

Mr. Nacelli explained that for the first time Numismatists can have a place to congregate to talk about coins, catalog and put in order their collections and swap information during their leisure time. He also explained that the building will also house the York Atlantic Coin Exchange which will buy and sell coins and offer a large assortment of supplies for the collectors as well as the dealers. They will also conduct public and private auctions. The exchange will be run by Mr. Austin J. Fenerty.

A cordial welcome to all is extended to the first meeting at 1609-15 E. Erie Avenue.

**THE KEYSTONE POSTCARD CLUB** will have its annual exhibit on Nov. 21 and 22, 1959 at the Ben Franklin Hotel, S. E. corner 8th and Chestnut St., Philadelphia, Penna. ## CARSON CITY DOLLARS

By Starr Gilmore

More than a few collectors cherish the magic of "CC" on a silver dollar and they have good reason for so doing. However, it is to be doubted that all collectors realize the full significance of this particular mint mark.

A recently issued United States postage stamp celebrates the Silver Centennial of 1859-1959 and thereby celebrates the Comstock Lode. The stamp is of particular interest because it shows the inspired Henry Comstock and two Irishmen, Peter O' Riley and Patrick McLaughlin, in a very interesting moment of our history. The gold outcropping discovered by the Irishmen later became famous as the Ophir mine and Comstock was not slow about putting in a claim of prior rights which certainly would have stood no very close investigation. Nevertheless, his dubious claim was accorded recognition.

Very little good is reputed to Comstock. He was a master of bluster and braggadocio and had about as many friends as a buzzard. He eventually sold his claims for \$11,00 and ended his sorry life in Butte, Montana, as a penniless suicide. Somewhat more fortunate, the Irishmen received \$43,500 for their rights although they also lost their money quite as rapidly as Comstock. Discovery of the Comstock Lode is usually given as June 12, 1859, although it was known before then.

Although set up in 1867, the Carson City Mint began actual work in 1870 with the minting of 12,462 silver dollars. It certainly made good sense to establish a mint as close as possible to the Comstock Lode even though things never worked out as must originally have been intended. For one thing, the Carson City Mint operated more or less in an economic vacuum and had further to compete with the San Francisco Mint. This situation is best understood when the activity of the two Mints is compared.

During the 1870-1873 period, the Carson City Mint was responsible for the coinage of 19,288 dollars. For the 1878-1893 period, a total of 13,962,041 dollars were minted. Virginia City made liberal use of the coins, but her population of 25,000 hardly called for any very great number. Nor did the addition of Carson City and a few other small places help out in any measurable degree.

For the 1870-1873 period, the San Francisco Mint turned out 9,700 dollars, and during 1878-1893, a total of 79,445,373 dollars. With regard to population, San Francisco was able to boast a quarter million, and this says nothing about the rest of California.

Relations between Virginia City and San Francisco were hardly of the best. Newspapers of the two cities exchanged compliments of a sultriness comparable only to the hot sun that scorched the Humboldt. Virginia City declared that her wealth was stolen by her big sister and San Francisco asserted that the Comstock Lode and its endless speculative activity was the ruination of her legitimate business. And oddly enough, there was a large measure of truth in the complaints of both. But however much they disliked it, the two cities were linked together and were forced to work together as a very unwilling team.

Carson City dollars were all minted from silver that came from the Comstock Lode. And this statement is also true for all the gold pieces that were minted. In very large degree the same is also true of the coins minted during this time by the San Francisco Mint, especially the silver pieces. California furnished some residual silver from gold mining operations, and naturally enough, a much larger amount of gold even though nothing comparable to what came in from the Comstock.

Experienced miners were dumbfounded at what they saw. Some are actually ran \$7,000 to the ton and the \$50 ore was used on the Virginia City streets as paving. Ledges of ore as thick as 65 feet were encountered and a special method of mining them was evolved in the use of square sets. When put together and interlocked, the square sets could be aptly compared to cells of honeycomb.

Before the Comstock gave up a reluctant ghost, and by the end of 1903, something like \$371,000,000 dollars was yielded in gold and silver. Of this amount, a rough 60 per cent was silver and the remainder gold. And by the end of 1911, the recovered wealth rose to \$821,905,925. At the end of its career, residual values of copper, lead, and zinc were taken from Comstock ore, metals that were ignored in the earlier days.

We have the Comstock very largely to thank for our huge heritage of silver dollars. The enormous silver output alarmed more economists than a few for they feared that an unlimited coinage of it would drive all the gold out of circulation. Strangely enough, the huge gold recovery did not alarm them in the least.

According to a recent report, the Denver Mint now has on hand about 35,000,000 silver dollars which are creating a storage problem. This may all be quite true. And if so, then what would be said of the 270,232,722 silver dollars melted under the Pittman Act of April, 1916? Our history fails to record any local outcry about want of storage

space. Since 259,121,554 dollars were exported to India, I derive from this that our Oriental friends can better appreciate the beauty of silver.

Our greatest silver dollar mintage, that of 1921, saw 87,736,473 of these coins put out. Compared to this single year, the entire mintage of the Carson City Mint is but miniscule and the dollars derived from this source deserve far more honor than they have been given. And although I have been at some pains to point out a few things in their background, I am yet well aware that much more could be said. And it is no part of my belief that they will fail of greater interest in the numismatic future.

Just before the Carson City Mint finally closed, a most fascinating scandal arose, a scandal that was never really solved and never will be. The episode began in 1892, and though too long to give in detail, some of it can be related.

It was charged by the Government that silver bullion worth 60 cents an ounce was taken from the Mexican mill at Empire, was brought to the Mint at night, and then coined into dollars worth \$1.35 an ounce. Further, it was charged that these dollars went through the Bullion & Exchange Bank, then made their way to the State Treasury, and were then exchanged for gold coin.

When William Westerfield was elected State Treasurer he found \$80,000 in new silver dollars of the date of the previous year in his keeping. Since the Carson City Mint had coined no money in the previous year he thought the situation peculiar. Although the defendants alleged these dollars to be tax payments, a check of the books showed only \$15,000. Two persons of critical importance in the affair were either killed or committed suicide and could not be questioned. And as it finally turned out, the Government never investigated the dollars which were not officially coined.

With regard to gold bullion which mysteriously disappeared, a defense of very strange sort was set up. It was alleged that the lost gold ran off through a potato patch and it was further alleged that the defense spent \$5,000 in gold salting the potato patch in order to prove their ingenious theory. Since the jury refused to believe this interesting story, two of the defendants were found guilty and spent seven years term in the penitentiary. Say what we will, life at the Carson City Mint must not have been wholly without color. The full account of the episode given may be read in a History of Nevada, a two volume book compiled and partly written by Samuel P. Davis.

And finally, and I think appropriately enough, the Carson City Mint closed on a note of triumph in 1893 with the largest dollar mintage for the year, one of 677,00 which topped the mintages of Philadelphia, New Orleans, and San Francisco.

## PAPER MONEY ROUND-UP

## A Favorite "Uncut Sheet"

By Harold Don Allen

Perhaps, like me, you are in this hobby for plain enjoyment, and for the great deal of intangible satisfaction it can bring. There are more of us, I think, than most "investment counsellors" would suspect. If so, and if you are wondering just what numismatic areas can give you the greatest dividends in pride of ownership for a relatively modest investment, I can suggest several. The most eye-catching, I think you will agree, is the uncut sheet of "broken bank notes," a fine display for the den wall which need cost a few dollars at most.

The uncut sheet, normally an unsigned "leftover" in the wake of bank failure, is an attractive document. Most notes of the nineteenth century were printed in sheets of four, one note beneath the other, and the four notes may have been of the same or of different denominations. Our illustration is one which never fails to attract attention, a small sheet of splendid steel engraving, having two notes of such high denominations that it was unusual to find them being produced for nineteenth-century banks.

Since note circulation was restricted, and tied to bank reserves and other such factors, most banks would have preferred to circulate 100 fives rather than a single five hundred dollar bill. (It is interesting to compare how, when Canadian chartered bank circulation was sharply curtailed after 1935, the higher values were the first to disappear.) These two notes, a \$500 and a \$1,000 of "The New Orleans Canal & Banking Company," are the work of the firm of engravers, Rawdon, Wright, Hatch & Edson, who were incorporated into American Bank Note Company after 1858. The notes have ornate reverses, and can be presumed to date from a few years prior to this time.

An added interest to many such old bank notes is the contemporary flavor of the artwork: note the old sidewheelers on the \$500.

More research has been done on such early issues than most collectors realize—although a good part of it is scattered, and a considerable amount remains to be done. The Canal Bank history was given in THE NUMISMATIST a few years back, but many other nineteenth-century institutions are little more than a name.

## A LETTER FROM A READER

Editor's Note: This letter was one of the nicest with a chuckle I've received in a long time. Due to the circumstances I've left it anonymous lest our hobby is minus a collector.

Dear Frank, I am terribly sorry that I am late with my renewal, my dear wife God love her, bids your magazine every month I get it, that's the only way she gets even with me. I recently gave her a gift that's how I got the August issue with the renewal reminder. Lots of times I think I didn't receive it or get got lost but Now I know where it goes. As far as I am concerned I would gladly give \$10. a year for your magazine, it gives me many hours of real honest to goodness revelation. If I get to much mail from the hobby you can hear the War Hoop of my dear wife. So I have to sneak a look at them while she's away at bingo, but as the French say "Si La Via" in this line you take the bitter with the sweet. Thanks again, I can truthfully say 1 year of your magazine made my past 20 years of collecting look sick, your grading sheet was perfect.

Yours Respectfully,

P.S. Even if I get 2 or 3 copies a year from my wife I am satisfied.

Dear Mr. Spadone:

Congratulations on the "Coin News." I certainly enjoyed my first issue, and especially like your articles on Canadian coins and also on different types of paper money.

Dear Mr. Spadone,

Recently while searching through rolls of cents I came upon a curious specimen of the 1958P mint Lincoln cent. It appears to have been struck on a foreign coin of nickel alloy. It is nearly full size, only the upper half of the motto "In God We Trust" is missing and the L in Liberty. The letters—BER—are faintly visible along the obv. edge, also a large one (1) is visible on Lincoln's shoulder.

I have read of many curious finds reported in the "Coin News." I wonder could you inform me as to whether anyone else has found such a coin. If so, does it have any value?

I'd appreciate any information you could give on this coin. If you have no knowledge of this type of error, could you put me in touch with someone who is in the "know" on this specimen.

It is possible that this find may be of interest to other readers of the "Coin News." I know I enjoy very much reading of other collector's finds.

P.S. The errors I make typing are not rare.

Dear Sir:

Just wanted to drop you a note to let you know how much I enjoy the writings of Mr. H. D. Allen on foreign paper money, and the increased space and interest you are devoting to this often neglected phase of numismatics.

I have made several contacts in this field of the hobby thru your pages, and feel that many foreign paper money collectors are beginning to look upon your publication as the center of FPM activity, as well as turning to it for the fine material concerning regular U. S. issues, both articles and advertisements.

## Coin Talks Over the Radio

Big Joe's Radio Program on WABC, "The Happiness Exchange," invited Joe Angello of Joe's Coin Shop of Passaic, N. J., Nick Salimbene and yours truly for another interesting talk on the Coin Hobby. The talks lasted 1½ hours. This included various series and inquiries received via phone while on the air. I must say the dozen phone lights were constantly on. It was surprising to hear later that Joe Angello had the broadcast recorded on tape at his home. It was interesting and enjoyable to hear the whole broadcast repeated at Joe's Coin Shop. (Big Joe) Joe Rosenfield, Jr. mentioned he bought the rights to the U. S. "Coty" Coin Club and will be doing business under the same name.

We regret to say none of the entries sent in by our readers had the (5) correct places, although two readers listed (4) correct. The tough one that stumped the experts was "Hyderabad." Watch for our next quiz with new notes in our November issue. Most of these notes were never published by any publication.

Dear Frank:  
Would like to take this opportunity to congratulate you on the September issue of "Coin News"! It is excellent, cover and all. I'm sure you've hit the right combination now, and can see a good future with a bigger and better magazine from here on in. Just couldn't resist sitting down and letting you know how I feel after seeing this new copy.

Clarence Fink, Calif.

Dear Sir,  
I started collecting coins back in 1942 when I was selling newspapers back in Chicago. I had never read a numismatic magazine until I noticed your ad in Popular Mechanics and sent in for your sample copy. I really enjoyed every page. I have a number of complete collections. The funny part about this is that most of Barber and Liberty Seated coins I found overseas while in the Air Force. While in service I also was able to pick up \$1400.00 in U. S. gold coins, all at face value. Most of them in Italy and Peru. I wish to thank you in advance for one year of enjoyment.  
**George Becci, Phoenix, Ariz.**

Gentlemen:  
Here is my three (\$3.00) Dollars in payment for another year's subscription to your very enlightening and interesting numismatic magazine. I have a one dollar bill of the 1934D series that has the uncompleted signature of the Secretary of the Treasury, John W. Snyder. The signature on the bill reads as follows—John W S This bill has been checked by several coin collectors and they find that it is genuine and that there are no erasures. Where can I get more information as to its value?

Dear Sir:

I enjoyed every issue. To me, the most entertaining part of your publication was the series of articles by Earl McBrayer, on Roman coins. I certainly hope you are still running them from time to time. I have high regard for him both as a writer and a dealer. The few purchases I have made from him have been excellent ones, and he not only attributes his coins, but gives a brief history of each when interest is shown in a particular coin.

As a publisher, I'm sure you receive many suggestions that are worthless and irritating, but I for one, would like to encourage you to publish in booklet form all his articles. I regret very much not having saved the articles I've read by him, and I believe such a booklet would be well received by enough collectors to make it profitable. I do hope you will give this consideration and I believe there is a need for this type of book that would encourage collectors to this field of numismatics.

Hi Frank—

The J. & E. Sale of mint errors (Aug. F. E.) made me want to tell of some of the "weirdies" I have found.

Some "flow" coins, including a wonderful 1956, with mint bloom both sides, several "skinny's"—well struck—six 1941 PSD cents with "lazy 1," and five 1943S quarters, with swelling on the neck (which looks somewhat like a goitre), and the rev. of all these coins is perfect. I'm sure they'll become as sought-after as the Lincoln 1924S goitre-neck if they become known.

Then here is my real prize—a 1920S Lincoln struck just at the top of the head—with a half-moon of un-used planchet on the bottom, to the right. The wheat stalks on the right are slightly worn on right edge of course, but the left side is fine. His hair isn't even worn away—too much.

I consider this one a real jewel—Dear Frank:

Just a short letter of congratulations to let you know what a really fine job you have done and what a really fine paper you have in the "Coin News."

I am quite sure it is going over big and will be more of a success than the "Flying Eaglet" in the past.

Keep up the good work. You are doing a lot for numismatics.

Yours very truly,

Grover C. Criswell

Dear Mr. Spadone,

While I was reading an old coin catalogue printed in 1933, I came across several interesting things. One of them was a 1914D unc. cent selling for \$.05. Silver 3-cent proofs were listed from 5 cents to 25 cents. The 1876CC 20-cent piece was priced at \$25. Most gold was marked about 25c above face value.

I sure wish I was collecting then. Keep up the fine work on your magazine.

Dear Frank,

Just a note to congratulate you on the new format for the new title for your publication. Certainly, it is a great improvement, one which will prove to be of great value to you over the course of the years.

I wish you continued good luck and success.

Kindest regards.

## AUCTION OF AUTOGRAPH SPECIALS

### LOT No. 1

Dated August 17th, 1887

Enclosure of engraved letterhead, letter only signed by Fitzhugh Lee as Governor of Virginia as to the date of Gen. Stonewall Jackson's death at the Battle of Chancellorsville. During the Civil War Fitzhugh Lee was Commander of the Confederate Cavalry, distinguishing himself in the battles of Winchester and Chancellorsville. Lee was the nephew of the famed Robert E. Lee. After the war he became Governor of Virginia, and then Military Governor of Havana during the Spanish-American War. Lee was also the author of a biography of his uncle in 1894, "General Lee." This rare and historical letter signed by Fitzhugh Lee "Unpriced." What's your bid? Bid closes November 15, 1959.

### LOT No. 2

Framed letter on White House watermarked stationery signed by Executive Clerk Rudolph Forster, returning an autographed (Calvin Coolidge) drawing of (The President "Broadcasts" His Message) depicting Coolidge as a farmer "Seeding Early for 1924 Calf," as Uncle Sam looks on. Drawing by Marcy is a black and white pencil sketch, possibly printed in magazine or newspaper (framed). This is one of the earliest known autographs of Calvin Coolidge AS PRESIDENT in December, 1923, just several months after the death of President Warren G. Harding in August of 1923 fulfilling his term of office. Rare indeed. What's your bid? Bid closes November 15, 1959.
